	MEMORANDUM FOR THE RECORD	
. •	SUBJECT: ARGO Meeting - Tuesday 10:00 A.M. to 1:00 P.M November 3, 1970 - Room 208, EOB	-
	OST, Chairman ARGO, opened the meeting. With no discussion and in response to a question he advised that no action	25X
	was required by recipients of the ARGO Charter recently distributed under covering letter from President's Science Advisor. He advised of changes in the agenda to eliminate an ESSA briefing or Utilization of U-2 Photography of the Sierra Nevada snow fields (see Agenda attached).	25X เ
	KH-4B Color Film - Geological Application	
	(OSP) introduced (contractor) who presented an overly detailed 1 1/2 hour briefing on subject. None-tit was interesting, informative and excellent - particularly as it with the months in the making. The 4B/SO-242 film was-used in sterewith 3404 B&W. Mission 1108 was used for 3 areas of the Soviet Unic China. Information sought was geological in character and applications were made to mineral/petroleum exploration indications.	vas less eo on and
	Problems were encountered with lack of ground truth elements by maps were found which helped. The briefer commented that a little getruth (other sources? - WRL) would allow him in the case of a China petroleum area to make "good" estimates on reserves in that area.	round;
	He pointed out that 15-20' resolution was good enough and he wo trade-off better resolution for color (in the type of problems he addressed - WRL). He also stated that views from space give better geological perspective which allow targeting of specific areas for further work by lower level platforms, magnetometers, etc.	ould
	The contractor's report will be distributed in January, 1971.	
	Red Dot Photography	
	OSP, briefed on Red Dot photography. Red Dot photography by Delta III/U-2 borne camera at 65,000'. The tare on new films and photo techniques and have been conducted for a 'number' of years. NPIC provides the mission coverage plots. EK cothe missions, flight planning, etc.	ests

TOP SECRET

25X1 The purpose of the presentation was to invite/allow requirements from the "peaceful" agencies via ARGO that testings be done over areas of use and interest to them. 25X1 USGS, promptly took advantage with request for coverage of lunar landing test sites in Arizona (in color). The Red Dot flights contain both color and B&W. Also, technology and techniques could be made available to the agencies. NPIC has made the index available at Reston. The information is classified Secret. Some discussion (to be resolved by Security) about unclassified use occurred. 25X1 mentioned that he had asked NPIC to update the index with the last 8 missions (I checked and found we had the requirement and asked that results be sent to Reston). Also there was some discussion on who would do the rectification - this will be checked (ACIC or TOPOCOM?) by 25X1 Intelligence Briefing on Results of Color Task Force. 25X1 OSP, gave a briefing on results to date of the NRO Color Task Force. This information is well disseminated in NPIC Other Business It was noted that an EK report on spectral reflectance off soils would be distributed soon. 25X1 ARGO Representative Attachment: Agenda for November 3, 1970 Meeting of ARGO Steering Committee TS TKH (WORKING PAPER). Distribution: Copy 1 - NPIC/PPBS— 25X1 2 - NPIC/TSG w/o attach 3 - NPIC/TSG w/o attach 4 - NPIC/IEG , w/o attach 25X1

	MEMORANDUM FOR	
	ARGO Committee	
	SUBJECT: Agenda for November 3, 1970 Meeting	.*
	The ARGO Steering Committee will meet from 10:00 am to 1:00 pm in Room 208, EOB, on November 3, 1970. I hope you will attend.	
	We are planning that the agenda for this meeting will be composed of the following items:	
of the gal	A. ESSA briefing on the Utilization of the U-2 Photography of the Sierra Nevada snow fields to include:	
V	<ol> <li>strength and weaknesses of the coverage</li> <li>accuracy of information using the U-2 coverage and with conventional data</li> </ol>	-
Dic.	3. cost of using the U-2 data	
	4. value of the data in terms of decisions made to include reduction of flooding, water saved in reservoirs, etc.	<i>i</i>
	B. Interpretation of KH-4 color photography for geological application: (contractor to CLA).	25X
g mid	C. Availability of Red-Dot photography:	25X1 25X1
X	D. Unfinished Business.
